

Allied health treatment request

To be used by allied health practitioners working with NSW workers compensation and Compulsory Third Party (CTP) claims.

How do I complete this form?

1. Complete each section with the person with an injury
2. Sign the form
3. Submit the form to the insurer managing the person's claim

Once submitted, insurers have:

- 21 days to make a decision about treatment requests in the workers compensation scheme (except for services specified in Table 4.1 and 4.2 of the [Workers compensation guidelines](#)).
- 10 days to make a decision about treatment requests in the CTP scheme.

Where do I go for help?

Read the Allied health treatment request Explanatory notes at: sira.nsw.gov.au/ahttr

Request number AHTR-20260913-1003

This is the number of request forms submitted

Date of request (DD/MM/YYYY) 13/09/2026

Date services first commenced (DD/MM/YYYY) 13/09/2026

Total number of consultations to date 1

Your allied health discipline Physiotherapist

Other

Referred by Dr J Smith (nominated treating doctor)

Phone number 02 9000 0000

Section 1: Details of person with an injury

Name Adam Edwards

Date of birth (DD/MM/YYYY) 24/05/1958

Pre-injury occupation Chef

Pre-injury work hours/week (average) 38

Claim number CLM-2026-1003

Date of injury/crash (DD/MM/YYYY) 30/08/2026

Section 2: Your clinical assessment

Compensable injury/illness

Acute L4/L5 lumbar disc injury sustained lifting at work

Current clinical signs and symptoms

Persistent central low back pain 4/10, reduced lumbar flexion, morning stiffness. Neural signs resolved.

Risk screening

Have you applied a risk screening tool in your assessment?

e.g., OMPSQ-SF, Keele STarT Back, Whip-Predict, K10 etc

☒ Yes

☐ No

Name of risk screening tool Orebro MSQ-SF

Date administered (DD/MM/YYYY) 10/09/2026

Score/comment 42 - low risk of delayed recovery

Details of any pre-existing conditions directly relevant to the compensable injury

Nil relevant

Capacity

Do you have a copy of the position description/work duties (workers compensation and where relevant CTP)

☐ Yes ☒ No If no, insurer to provide.

	Pre-injury capacity Describe what the person did before the injury(s) related to this claim	Current capacity Describe what the person can do now
Work occupation, tasks, days/hours worked	Full-time warehouse storeperson, 38 hrs/week including repetitive lifting to 20kg	Suitable duties 4 hrs/day, lifting restricted to 5kg
Usual activities activities of daily living, driving, transport, leisure	Independent in all ADLs, drove daily, social soccer weekly	Independent ADLs, driving short distances, no sport yet

Standardised Outcome Measures (SOM) – At least one measure to be reported

Measure	Initial score Date and score of the first SOM completed		Previous score Date and score of the SOM completed for submission of the previous AHTR		Current score Date and score of the latest SOM completed	
	Date	Score	Date	Score	Date	Score
e.g. Neck Disability Index	1/02/23	21/50	N/A	N/A	26/03/23	14/50
e.g. DASS	1/02/23	Depression=24 Anxiety=19 Stress=33	22/03/23	Depression=19 Anxiety=15 Stress=28	21/07/23	Depression=15 Anxiety=11 Stress=22
1. Oswestry Disability Index		4/10		22%	13/09/2026	22%
2.						
3.						

Interpretation of score(s)

Improved from 38% to 22% (moderate to minimal disability) — clinically significant improvement, on track for full duties

Section 3: Barriers to recovery and strategies to address

Barriers to recovery identified through your screening and assessment

Fear-avoidance beliefs regarding lifting; employer has limited suitable duties

Strategies to address barriers to recovery (may include actions to be taken by you/person with an injury, strategies agreed with others in treating team, referral to other services, etc):

Graded activity exposure with lifting progression; liaise with employer regarding duties upgrade

Would you like any of the following assistance?

Direct contact from the insurer ☒ Yes

Case conference ☒ Yes, who with Insurer case manager and employer representative

Collaborative case review with an independent consultant? ☐ Yes

Section 4: Treatment plan

Has the person with an injury achieved the goals from the last treatment plan?

☐ Yes ☐ No ☒ Partially ☐ N/A

Person with an injury's goals

(Goals should be Specific, Measurable, Achievable, Realistic, Timed (SMART))

e.g. To return to my usual job as a retail assistant by 4 August; To drive for an hour to my parent's home by 6 July; To return to training my kid's soccer team by 3 October.

1. Work goal
or activity goal if not
working at time of injury

To by
Return to pre-injury duties 38 hrs/week within 6 weeks

2. Activity or
participation goal

To by
Return to social soccer and unrestricted driving within 8 weeks

Person with an injury self-management (what techniques/strategies/exercises are they completing between sessions?)

Daily home exercise program, activity pacing, heat before exercise

Your intervention

Progressive resistance and graded activity per NSW low back pain guidelines; manual therapy as adjunct only

Outline the rationale for the services you are requesting

Progressive resistance and graded activity per NSW low back pain guidelines; manual therapy as adjunct only

How many additional sessions do you anticipate before discharge? 6

Anticipated discharge date (DD/MM/YYYY) 30/10/2026

If this date has changed since the last plan, please explain why

Did you collaboratively develop this treatment plan with the person with an injury? ☒ Yes ☐ No

If No, please explain why

Section 5: Service requested

Service type include consultation type, other services e.g., aids/equipment	Number of sessions or hours if case conferencing	Frequency/ timeframe e.g., 1 consultation/week	Service code where applicable	Cost per session/item	Total cost
Physiotherapy consultations	6	Weekly for 6 weeks	WCP002	103.40	620.40
					\$ 0.00
					\$ 0.00
					\$ 0.00
					\$ 0.00
Overall total					620.40

Section 6: Your details

Treating practitioner name

Isaac Newton
